Commenting on results Mr. Namit Malhotra, Executive Chairman and Group CEO, Prime Focus Ltd said

It has been an eventful quarter for us as a Group, where PFW completed the merger with Double Negative (D-Neg) which we all are very excited about. At the same time, we initiated a significant integration and consolidation exercise across our global footprint. These extraordinary one time costs juxtaposed with seasonally the slowest quarter in the Industry has had a major impact on our bottomline. The integration process with D-Neg has started well with the strategic assumptions playing out as expected. Post D-Neg integration, we are proud to announce that we have now become a fully integrated Tier I provider of creative services solutions globally. Our focus on cost stays high - we have shutdown our London and Vancouver VFX operations in PFW. The RMW's FMS business merger is awaiting regulatory accelerated growth path we are extremely positive approval post which we expect to complete the transaction expeditiously. PFT is witnessing increasing traction for its products in the International markets and we are very excited about the growth opportunities there in addition to the continued momentum in India. With all our businesses on an accelerated growth path, we are very excited about the future, as you look beyond the one time integration costs, there are significant post-merger revenue & margin enhancement opportunities ahead.
