DQ Entertainment (International) Limited

Audited Financial results for the year ended 31 March 2015

DQ Entertainment (International) Limited a leading animation, gaming entertainment production and distribution company, today announces its audited results for the year ended 31 March 2015.

Financial highlights for the year ended 31 March 2015:

	Rs in Mn	
	31 March 2015	31 March 2014
Revenue	1948	2398
EBITDA	1067	1004
Adjusted Profit before tax*	220	213
Adjusted Profit after Tax*	155	193
Cash & Cash Equivalent	679	11

* The adjusted Profit before tax and Profit after tax is after eliminating the notional foreign exchange loss (gain) on restatement of monetary values on the reporting date.

One of the significant reason for the reduction in turnover is due to change in the business model in the case of development and production of its own IP's. Earlier the company was producing the IP through a special purpose vehicle and recognizing production revenue. But from the financial year 2014-15, the Company is directly doing the production and capitalizing the costs of its own IP's and will only recognize the distribution revenue on completion of the project and delivery to the broadcasters. Slowdown in production and delay in the start of new projects on account of difficult market conditions has also affected the production in the year under review.

However, due to cost efficiencies, earnings before interest, depreciation and tax and foreign exchange is up by 6% compared to last year

The Company has recovered till date INR 1500 mn in receivables, till date. The balance debtors are paying up the amounts as committed. The Company is now very hopeful of recovering most of the very old outstanding debtors in the current financial year.

Operating Highlights:

- DQE has completed the production and delivery of “Lassie and Friends”, co-produced with Dream Works Classics USA and Super Prod France. It is airing successfully on international networks such as TF1 France, Telequebec Canada, ZDF Germany, Sun TV India, Media Corp Singapore, Noga Israel and several other networks globally.
- DQE’s VFX foray has been successful and the division has contracted and delivered high quality VFX for several domestic feature films.
- DQE’s feature film division has closed a US\$30m Print and Advertisement deal on a proposed theatrical release scheduled for autumn 2017. Jungle Book has attracted important Distribution & Sales agents in USA & Europe. Distribution contracts are under negotiations.
- The Licensing and Distribution division has negotiated 37 audio visual distribution deals and 14 licensing and merchandising deals worth US\$6.29m in the year to 31 March 2015, and a further US\$4m worth is in the pipeline.
- Power Kids and Tiny Toons, DQE’s digital channels, have recorded an average of 150,000 daily online views, resulting in increased revenues through both these channels.
- DQE has developed capabilities to exploit the latest advancements in technology and geared to meet increased demand for high quality stereoscopic, 2K and 4K content and is currently producing a unique hybrid CGI show combining live action with CGI animation called 7 Dwarfs and me.

Animation Industry Scenario

The animation industry is growing globally and production activity for the animation sector from 2013-15 has been increasing in various markets at a CAGR of almost 18-20% (Source: FICCI – KPMG Indian Media and Entertainment Industry Report 2015).

The good news is that animated feature films are a robust and thriving part of the entertainment industry and are expected to continue to provide great family entertainment for many years to come. Similarly the demand for animated content on most children’s and family channels has been consistently growing combined with support in the form of tax incentives,

rebates, production financing as well as co-production treaties between various countries, further fuelling the growth.

In November 2014, the Academy of Motion Picture Arts and Sciences announced that 20 animated films were submitted for the Oscars, which is a reflection of the demand for animated content internationally.

The year has been characterized by consolidation and realignment with mergers of several leading companies in this sector such as Epitome Picture and Nerd Corp with DHX Media, Micro Images by Technicolor, USA. Synergy from combined resources and production of high quality and innovative content is expected to result from such mergers.

The industry has been witnessing a transformation empowered by technological advancements, new delivery platforms and increasing diversity in content, like never before. The media and entertainment industry is undergoing a deep transformation. New platforms and ways to access and consume entertainment are redefining the rules of the game. On the other hand, newer delivery platforms impose new challenges relating to rights management, delivery formats and consumption behavior. We are focused on adapting our business model with strategies to remain competitive at a global scale.

Flexibility, adaptability and scalability have become more critical than ever. Our focus on developing IP ownership for global audiences with international marquee partners has forged the way for additional revenue streams to accelerate growth and profitability.

Fund Raising

DQE recently secured up to US\$50m from the issue of senior secured convertible bonds, mainly to fund the development and production of Intellectual Properties and co-production projects currently in the pipeline for production over the next two years, which are set out above.

With the recently concluded deal with Discovery family channel in the United States, we are confident of achieving success in this market which represents a large potential in terms of licensing revenues globally.

4) Digital

Among many other initiatives, our digital kids entertainment channels launched during the last quarter of 2014 have gathered momentum and are generating revenues. Power Kids and Tiny Toonz are expanding their subscriber bases on a continual basis. Power Kids showcases animated content for children aged five and above, whereas Tiny Toonz is aimed at younger children. Both channels have now started to gain traction and have witnessed over 150,000 average daily online views resulting in increased revenues through both these channels.

Review of Financial Performance

Although our revenues are down by nearly 23% as compared to the previous year, our earnings before tax, finance costs and foreign exchange increased by 33% as compared to the previous year. This is because of the various cost efficiency measures taken by the Company. The EBITDA margin also improved from 43% in the previous year to 58% in FY 15 under review.

Our Commitment

The key to our success has been our associates, comprising of a team of young, creative, dynamic and innovative professionals determined to excel. We as a team are always committed to our shareholders, bankers, customers and to everyone associated with our Company.
